COMPANY INTRODUCTION

OUR COMPANY

Empower Electrical was registered in 2003 and started operating upon registration. Our offices are as indicated above and our core business is mainly domestic and industrial installation, maintenance and repairs.

Through our association with out three branches in South Africa, Empower Electrical CC is well positioned to reach various customers through the word of mouth and also references from previous customers. And it's not only able to offer wide range of electrical engineering services, but in addition call on the invaluable experience and expertise gained over the ten years of operation.

MISSION STATEMENT

OUR MISSION STATEMENT

Empower Electrical CC's mission is to be the best company providing quality driven electrical solutions, primarily for Gauteng Province, KwaZulu Natal and throughout the whole of South Africa at large. We focus on personalized services by offering convenience and rapid service.

BUSINESS OPERATIONS

CORE BUSINESS OPERATIONS:

Empower Electrical specializes in the following work:

ELECTRICAL INSTALLATION AND MAINTANANCE

We have a team of qualified Electrical Technicians and Electricians, which mainly undertake the following installation and repairs:

- H.T Switchgear and Machinery.
- Construction and maintenance of mini-substations.
- Installation and maintenance of Standby Power Supplies i.e. Generator & Investors

The major clientele is composed of the following:

- Individual household
- Construction industry
- Commercial Enterprise
- Industrial entities

WE SPECIALISE IN:-

- Electrical installation
- Prepaid meter installation
- Maintenance
- Certificate of compliance
- Air condition service / installation
- Data & fibre installation
- CCTV installation
- Alarm installation
- Electric fence
- Gate motors

QUALITY CONTROL CRITERIA

PHYSICAL INSPECTIONS

Qualified personnel in our workshops and sites do thorough physical checks before the finished jobs are handed over to the commissioning team.

We mainly use our test procedure manuals for strict adherence to set standard.

Electrical Measurements

We fully equipped with Test Instruments, which include the following:

- Insulation Resistance Tester (Meggar)
- Loop Tester
- Clamp Meter for Current Readings
- Prospective Tester
- Conventional commissioning methods on complete works
- Hydrolic crimper

Key Competences

- Highly qualified and experienced staff.
- Turnaround periods to customer requirements.
- Three months guarantee on all work done (conditions apply)
- Very competitive prices.
- Available 24 hours a day throughout the year.
